## Hail Insurance

The same this season as last. I am representing nothing but the strongest insurance organizations on the continent, this for your protection as well as good business on my part.

The district suffered heavily from hail last season, the companies enumerated below gladly paid their losses, one hundred cents on the dollar.

Alliance Hail Insurance Co.	Canadian Indemnity Ins. Co.
Phoenix Fidelity Ins. Co.	British Traders Insurance Co.
Excess Insurance Co.	United Grain Growers
Connecticut of Hartford Insurance Co.	
Bae Hail Insurance, Paris, France.	

These Companies have assets ranging from \$10,000,000 to \$135,000,000, which is behind every policy.

The rates are considerably reduced this year. East of the 5th Meridian, 80 cents; West of the 5th Meridian, 90 cents.

We will call on you in ample time, wait and get our proposition.

## Will Hold School Fair In Didsbury, September 27th

A meeting for the formation of a School Fair was held in P. H. Reed's office on April 28th 1921. In addition to the School Board there were present, Mr. Aylesworth, Inspector of Public Schools, Mr. Holton, from the Olds Agricultural College and W. M. McKenzie, Principal of the Didsbury Schools.

Mr. Holton explained that the Department of Agriculture was willing to supply garden seeds free to all school children desiring them and in addition \$5000-worth of prizes for live stock exhibited at the School Fair.

It was decided to hold a school fair at Didsbury on Sept. 27th, 1921, and that this School Fair is to include the following School Districts with a representative field agent in each district.

Rosebud S. D.—Mr. Reeves  
Gore A.D.—Thos. Reid  
Neepawa S. D.—Mr. Walsh  
Jutland S. D.—Hugh McLean  
Grande Centre S. D.—E. Wark

Elkton S. D.—Mr. White  
Clover Mount S. D.—D. Dippel  
Westcott S. D.—Albert Whyte  
The following officers are in charge of the School Fair:  
President—Mr. J. Berch  
Vice-President—N. Clarke  
Sec. Treas.—W. McKenzie  
Field Committee—Pres., Vice-Pres., Sec. Treas.—Mr. McCor and Mr. E. Freeman.

Board of Directors—In addition to those on the Field Committee, Mr. Reeves, Mr. D. Dippel, Mr. Holton of Olds, and Mr. Aylesworth, Inspector of Schools.

In conjunction with the above Public School Fair there will be a High School Fair consisting of all the High Schools from Bowden to Aldred, held at the same time.

The committee in charge of the High School Fair consists of the following:

President—Dr. Clarke  
Sec. Treas.—J. W. Johnson  
Dr. Evans, P. H. Reed, Mr. Clements, Mr. Aylesworth and the Principals of the High Schools in this district, orate.

## W.C.T.U. Convention

The ninth annual convention of the W. C. T. U. for Central Alberta District was held at Didsbury on May 5, and 6. Owing to the absence of the President, the Vice-President presided at all the sessions. Twenty-two delegates registered, representing eight unions, namely: Olds, Didsbury, Lacombe, Olds, Red Deer, Sterlingville, Wetaskiwin and Westcott. The reports from various unions all showed marked progress and a determination to work for total prohibition in this fair Canada of ours. Papers on different subjects, carefully prepared, were read and talks given which were educating and uplifting. Thursday afternoon Mrs. McKinney M. L. A. spoke to the delegates and visitors and urged all members of the W. C. T. U. to stand for law enforcement, and vote for such election candidates as would be sympathetic to the cause of prohibition. At six p.m. Thursday, the Didsbury W. C. T. U. prepared a banquet in the Leuzler Block for the delegates and other visitors. During the evening an entertainment was held when five silver medallions and W. C. T. U. contestants in elocution competed for a gold medal. All did remarkably well. The winning contestant being Miss Eva Ray of Cremona. Several vocal selections and a flag drill executed by school children were much appreciated. Mrs. McKinnon gave another address in which she impressed upon all, the necessity of law enforcement as well

At the end of the program prizes were awarded for essays written in the schools on the benefits of prohibition etc.

On Friday morning the election of officers resulted as follows:  
Hon. Pres. Mrs. E. M. Sharpe, Lacombe  
Pres. Mrs. C. E. Coote, Olive  
Corr. Sec. Mrs. J. I. Poole, Wetaskiwin  
Rec. Sec. Mrs. J. V. Berscht, Didsbury  
Treas. Mrs. N. W. Brown, Olds.

**Sudden Death of J. S. Finlay, of Westcott**

The whole district learned with great regret of the sudden death of Mr. J. S. Finlay on Saturday last at his home at Westcott. He had been in poor health for some time but was attending to his work as usual almost till the last, coming into town on Thursday and transacting considerable business. He was taken suddenly ill on Friday and the end came unexpectedly as stated above. Dr. Clarke attended the case, but it was found that nothing could be done to save him.

Mr. John Finlay was a young man of 32 and has lived in the Westcott district for some years. He was greatly liked and respected not only in his home district but also in Didsbury where he was well and favorably known. He was well known in religious circles and was an indefatigable worker in the great cause.

Mr. Finlay was married about two years ago and besides his wife he leaves three brothers and five sisters, William, of Jolibo, S. Africa, Mrs. A. Vogel, Carstairs, Mrs. Brown, Winnipeg, James, Charles, Jennie, Maggie and Annie Finlay of Westcott, to mourn his loss. The funeral will take place on Friday, services will be conducted at his home at 1 o'clock and at the M.E.C. Church in Didsbury at 3 o'clock. Interment will take place in the Didsbury cemetery.

## The Country Life Problem

Not long ago, says a writer in the "Problems of Democracy" department of The Literary Digest, a well-known traveler and writer was being shown through the immense Capitol building of a Middle-Western State. "Just see the great army of officials we employ," said his guide, "every man of them was born on a farm." And then the visitor was shown through a quarter of the city where "you can go a mile and see only the homes of retired farmers." Quoth the guide, "This is a wonderful farming State."

Yet, comments the Literary Digest writer, the boys on its farms dream of jobs in town, and old folks on its farms dream of homes in town, and, as soon as they can arrange it, hire somebody else to run the farm, and move away. In fact "wonderful" farming States, meanwhile, you occasionally see farms abandoned outright, but even the custom of farming by proxy is deplorable.

In "The Country Life Movement," Mr. L. H. Bailey observes, "Farming by proxy or by any absentee method is as disastrous in the long run as the doing of any other business by proxy. I hold that it is essential that the very best people live actually on the land. The crops are there. The livestock is there. The machinery is there. All the investment is in the place itself. If this business is to be most effective, a good man must be constantly with it and manage it. A farm is not like a store or a factory that is shut up at night and on Sunday. The more difficult and complex the farming business becomes, the greater will be the necessity that a good man remain with it."

"The fundamental need," declares Mr. Bailey, "is to place effectively educated men and women in the open country." In his opinion all else depends on this. No formal means can be of any permanent avail until men and women of vision and with trained minds are at hand to work out the plans in an orderly way. Agriculture is now a school subject. It is recognized to be such in the schools course of studies, in the minds of the people, and of educationalists and legislators. It has found its way into the high schools. In Western Canada it is the outstanding department in our Universities.

But do the young people thus trained return to the open country? Some of them, it is true, but a lamentably small percentage of the total. Why not a larger number? Does farming pay? Is life in the open country attractive? Farming has 'its off years, and sometimes series of years, when the financial returns are not commensurate with the effort put forth. But the same thing is true of business generally. And assuredly farming today pays better than in the days of our grandparents. There are still many hardships in the more remote and pioneer districts, and conditions generally are not so ideal from conditions and desiring toll must be encouraged. The country population needs to be lived up to.

How is this awakening to be brought about? The small towns and villages, which are the real centres of all country districts, and whose very existence depends upon their surrounding farming communities, have a duty and an opportunity in this respect. In his admirable book, "The Little Town," Mr. H. P. Douglass devotes a chapter to "The Town's Country." Says Mr. Douglass, "The town's country is the area which trades with it, which makes common cause with it in buying and selling, in credit and transportation facilities." Its typical functionaries are the retail merchant, the banker, the postmaster, the doctor, the implement agent, the railway agent.

Moreover, the town's country is the area which comes to it for play, education and worship. Here are the country's moving pictures, its exhibition and sports grounds, and its Churches. The country's little schools are here, and most of its ministers of religion live here. Here, through the farmer may not directly share in them, are those social groups and activities which he imitates and possibly envies. Most of the social organizations to which he may belong centre here.

Therefore, the small town has a duty to its own particular "country." And the opportunity is as great as the duty. Among the chief needs of the farming community today is wholesome recreation. There is little community life in the open country, except what centres in the small towns and villages. Its lack constitutes what one man has called "the intolerable condition of country life." In almost every other respect, life in the open country has improved. It is a less isolated life. Railways, telephones, automobiles have greatly relieved loneliness. But is it a jollier life? No one pretends that it is. There is no play for children; no recreation for the young folks. Yet must be made jollier or we shall see more and more farms abandoned or farmed by proxy and more and more farm people moving to the city.

If we are to "place effectively educated men and women in the open country," men and women "of vision and with trained minds"—if we are to place them there and keep them there, we must promise them not only prosperity, but a joyful, sociable, merry existence which they will honestly prefer to life in town.

## Necessity That Canada Should Grow

Nation Must Have Men, But Not Undesirable Ones.

Both war debt and the railway situation require that Canada must grow, in the opinion of the Journal of the Canadian Bankers' Association, which says that to grow up to these we must "people the vacant spaces." However rigorous the United States may be in immigration regulations, due to the fact that they are approaching the saturation point, Canada's policy, the Journal states, can well afford to differ from that of her neighbor.

"It is well to remember," the Journal adds, "that a prosperous and advancing country has a greater digestion capacity than a stagnant country. Let us winnow out individual undesirables, . . . but men we must have. Not least, we must seek to keep our own sons from drifting southward."

## IS YOUR STOMACH SOUR? DO YOU BELCH GAS?

If you have sour risings from the stomach, feel bloated and uncomfortable, just try twenty drops of Nervine in sweetened water three or four times a day. Nervine dispels the gas, sweetens the stomach, makes you fit and fine in a few minutes. As a general household remedy for many of the ills that constantly turn up, nothing is more useful in every home than a 35 cent bottle of good old "Nervine."

More than one-third of the children in Egypt die before the age of five years.

## Heart Weak, Nerves Shattered After the "Flu."

In a large majority of cases those who survived the last epidemic of Spanish influenza were left with weak hearts, shattered nerves, impoverished blood, and the whole system has been left in such a general weakened and exhausted condition that it has been impossible to get back your old health and strength.

If you are in this condition there is only one thing to do: take a course of Miller's Heart and Nerve Pills and see how quickly your heart will be strengthened, your nerves toned up and your blood enriched.

Mrs. W. W. Pearce, 14 Seaton St., Toronto, Ont., writes: "I was left with a weak heart and in a run-down condition from the 'flu.' My nerves were badly shattered, and I had such pains in my head I could not sleep at night. I took several doctors' medicines without getting any better. My husband put me to try Miller's Heart and Nerve Pills, and after I took one box I got relief; after taking six boxes have been well and no longer suffer."

### Burbank's Latest

Has Evolved New Wheat Which Is Exceedingly Early.

After experiments extending over eleven years, Luther Burbank, the great Californian horticulturist, is said to have evolved a "quality" wheat, containing over fourteen per cent. gluten, an astonishing improvement in this grain. The new type of wheat has a very large white, flinty kernel and produces a very white flour.

The new wheat, according to Mr. Burbank, is an exceedingly early wheat, being the earliest of some four or five hundred varieties which he has been growing. It has been tested alongside sixty-eight of the best wheats in the world, and has exceeded them all in yield, uniformity and all other desirable characteristics. The growth is strong, being four feet on good ordinary soil, it thrives unusually well, and on ordinary valley soil, with special cultivation, care, or fertilizing, produced this summer at the rate of 49.88 bushels per acre, every plant and every kernel being uniform, as this wheat was originally grown from one single kernel.

Nature was preoccupied when she put long hair on hunting dogs and filled the woods with burrs.

## She Feels As Fine As A Growing Girl, Says This Winnipeg Woman

"My heart goes out to anyone suffering from indigestion and nervousness, and I want to tell them all about this grand Tanlac, for it is the medicine that relieved me of these troubles and restored my health," said Mrs. S. Jackson, wife of a prominent business man residing at 429 Agnes St., Winnipeg.

"Before I got Tanlac I was in a dreadfully nervous condition. I couldn't stand the least little noise, and at times I became so upset I was afraid I would go into hysterics. My appetite was so poor I had no desire to eat, and couldn't relish my meals

at all. My food didn't digest properly, and I was in a badly rundown condition. My sleep was restless and broken, and I felt miserable all the time.

"Well, Tanlac has rid me of all my troubles and put me in such fine health I feel as fine as when I was a growing girl. I eat good and hearty and enjoy my meals, and never have a care or worry. Why, I feel as fine as anybody could want to feel, and I can't help but be delighted and enthusiastic over this wonderful Tanlac." Tanlac is sold by leading druggists everywhere.

### Livestock For England

Edmonton District Has Made First Commercial Consignment.

A livestock shipment of importance to Central Alberta breeders has just been made from Edmonton consisting of four cartloads of choice steers, all weighing about 1,400 pounds, bought from their original owners at \$15 cents a pound, which have left for England. This is the first commercial consignment ever made from the Edmonton district overseas, and it is expected to be the precursor of a regular traffic.

## THE BEST MEDICINE FOR LITTLE ONES

Tensands of mothers state positively that Baby's Own Tablets are the best medicine they know of for little ones. Their experience has taught them that the Tablets always do just what is claimed for them and that they can be given with perfect safety to children of all ages. Concerning them Mrs. Joseph Thierens, St. Gabriel de Brandon, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. I thought I would lose my baby before trying the Tablets, but they soon made him healthy and happy and now I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**THE NOVELTY OF THE DAILY TASK**

Most of us get in a rut, of course. Any student of human nature will tell you that.

The real difficulty is not that things may not go reasonably smoothly in a rut, but that they don't get better or bigger.

The things we do repeatedly we are apt to do unthinkingly after a while, and the world demands improvement which only comes by thinking.

The need of most of us is to see the novelty in our daily task so that we may wonder at it and how to improve it.

We get used to it and are not conscious of it.

As for example:

There lived a man with a fine, long, wide, luxurious beard reaching nearly to his waist.

It was one of those beards we see

in the country churches sometimes, or in the family portraits unpopular in the shirt and collar trade.

Well, this gentleman, visiting a friend one day, was entertaining the little daughter of the family who, admiring the beard, asked him as one of a series of questions what he did with his beard at night.

He was stumped. He couldn't tell. He just wore it.

But that night he determined to discover.

First he laid it carefully outside the covers, but he felt as if he were laid out.

Then he tucked it under the covers but every time he moved, it pulled the skin on his face.

Next he tucked it inside his pajamas. That didn't suit him because it tickled him.

So he sat up half the night trying to dispose of something he'd had for twenty years and slept with all that time.

It had grown on him and he was so used to it that he wore it unconsciously.

Well that's what happens in our work. We get too used to it.

But there is a constant novelty in it.

Why wait for the other fellow to discover it and improve upon it?—Strathmore.

**Will Investigate Beef Trade With England**

EDMONTON, May 16.—Hon. Duncan Marshall will leave this week for Toronto. He is calling on May 27th on the Canadian Pacific steamer "Corsican" for the Old Country, in order to arrive in the old land at least two or three weeks ahead of the shipment of steers, which the Department of Agriculture is making on the "Lakonia" of the Dominion Line.

Mr. Marshall is naturally anxious to be in the Old Country a short time before the shipment arrives in order that arrangements can be made for them to be seen by a goodly number of farmers and breeders.

**Beef Trade in Britain**

In connection with the enterprise, Mr. Marshall has also decided to make a thorough investigation of all phases of a possible beef trade with Great Britain. A good deal has been said and a considerable amount written with respect to the value and importance of a chilled meat trade as well as a live cattle trade with Great Britain and so many statements, of a contradictory nature have been made and the situation being of such a serious nature, the Government of Alberta has determined to make a careful investigation and has also decided that this must be begun at once as a market for our cattle next October is perhaps the most serious problem that we have to face in this Western Province.

**Assisting Mr. Marshall**

The department will be represented by Mr. John Wilson of Innisfail, vice-president of the Alberta Cattle Breeders' Association, and a man whose experience, as an old country butcher will stand him in very good stead in making the investigation. The member of the United Farmers committee selected is Mr. William Spruell, who is also an old countryman, who has knowledge of the cattle business in England and who can be depended upon to push the enquiry in an energetic and effective way.

## The Lamp In The Window

By Frank Wall

It was just a little cottage, standing in a corner of what had once been old John Humphreys' farm. John Humphreys was dead and the farm had been merged long ago in the magnificent grounds of the house built by some unknown millionaire on the crest of the hill.

There were all kinds of rumors about that house, but the only facts were that no one had ever seen the owner or had ever heard his name. The house, a palace in white with broad terraces and smooth sleeping lawns, was exquisitely furnished, but only the caretaker and the scrub-woman enjoyed its perfections. Day by day and year by year it stood there, glowing in the warm sunshine, and at night the moon played quaintly about its white walls and cast long slanting shadows across the lawns; and that was the only sign of life there for almost twenty years.

The little cottage stood near the road and was occupied by old John Humphreys' son. He kept himself aloof from his neighbors and was not very popular. They said he had no social ability, no human feelings, and perhaps they were right. Ordinarily his face was like a mask, but when sunset came and he placed his little lamp in the window overlooking the road, it softened into an extraordinary tenderness. If the neighbors could have seen him then, they might have changed their opinion of him.

And this had gone on for nearly twenty years. Every night he lighted the little lamp, and when he had lighted it he sat by the window watching and watching and watching for someone who never came.

Sometimes there were noisy parties who had motored down from New York, which was only fifty miles away, and they would come and ask for something to eat. He gave them the best he had, and then he would go back to his corner and stare down the mansewing road.

One night a furious storm broke over that part of the country. The rain came down in torrents and the vivid flashes of lightning made the big house on the hill appear even more impressive and beautiful. After he had lighted his little lamp, he stood watching the storm, and it was while he was so occupied that he saw an automobile toiling painfully up the steep slope of the road. It came to a standstill opposite the cottage and half a dozen people alighted and hurried up the little path.

They were all young except one, a very beautiful woman of about forty years of age. The others addressed her as Madame Lesia, and the cottage

er, sitting quietly in his corner, recalled her name as that of a great singer who, after years of struggle, had recently taken New York by storm. They were all artists of one kind or another, full of wild spirits, smoking every convention, and the one they called Madame Lesia was the wildest of them all. Yet there was this difference: that her wildness seemed to be forced. It was as though it struggled all the time with some deeper feeling, as though some secret shroud of her heart had been touched and she wished to hide it.

"Let us ask Madame Lesia," cried one in the midst of a furious argument, and the singer turned smilingly. "Jack Montford says that if he were married he would sacrifice even his wife's happiness to his art, if need be; that art is supreme."

"And you, Helen?"

The girl laughed vividously and yet with an undercurrent of sadness. "I don't know," she murmured. "I want to be famous, but I want to be happy too. Is it not possible to be both, Madame?"

The singer was staring at a photograph that stood on a side-table. It was a girl of perhaps twenty-three or twenty-four years of age, dressed in some cheap material, obviously village-made, but one scarcely noticed that for the transfiguring happiness that shone in her face.

"Do you see that girl?" she said quietly. "Do you notice how plainly she is dressed? And that cheap little wedding ring at which she is staring so intently? That girl isn't famous and yet she looks happy. And I?" she added, as though speaking to herself, "I am what you call famous, but I am not happy."

The cottage had left his corner by the window, as though drawn by the sadness in the singer's voice. "That is my wife," he said hoarsely. "We lived near here, but the lure of New York crept like a poison into her veins. She thought she could become famous and she left me."

"Some day perhaps . . ." said the singer softly.

"Every night I light my little lamp in the window and watch for her return," said the man passionately. "Always I hope that she will come back to the simple happiness she cast aside for the glitter you call fame."

Madame Lesia rose earnestly. "We all hope so," she said earnestly. "See, my friends, the storm is over. Who will prepare the car for the journey back?"

The young men of the party raced out all at once and the girls followed a moment later. Madame Lesia turned to the cottage. Her eyes were shining. "They told me you had gone abroad," she said.

The man lifted his hands in a gesture of despair. "For twenty years I have waited here," he said. "And now . . . you have come back, but you are famous. This humble life will appeal to you less than ever."

"I want you," she whispered, "that is all I care about. I would have spoken as soon as I saw you, but I was afraid. And as for the fame you speak of . . . it means nothing to me now."

Her companions were calling her. The man went to the window and looked down the little path he had tended so faithfully.

"It is for you to decide," he said solemnly. "God knows I want you, but there is no bitterness in my heart now. If you decide to go back to your great world I will put out this light and there is an end of all my hopes."

The others were at the door now, and she went and stood by her husband. "This is how I answer that question, Helen," she said to the girl. "I left my husband twenty years ago. I have tested all that fame can offer and now I come back home. You must go on to New York without me. This cottage is my home."

"No," cried the man in a ringing voice. "I have something else to say. You tired of me because you said I wasted too much time on this invention I was working on. Well, I justified my ambition as you justified yours." He went across the room and pulled aside the curtain, showing the big house on the crest of the hill, glorious in the moonlight. "That is the result of my invention," he cried. "That is the home to which you have come back."

## Police Force Strengthened

Provision Made for Enforcing Law at Fort McMurray.

The importance of Fort McMurray as a jumping off place for the great north land, and the fact that the townsite is at the end of the steel of the Alberta & Great Waterways line, has resulted in the Alberta Provincial Police strengthening their Ft. McMurray detachment. It is the anticipation of the police that additional police protection will be required at the steel's end.

Constable J. Smith, formerly of the detachment at Clyde, left Edmonton for Fort McMurray recently and will take up his post at that point and co-operate with Constable J. B. McDonald who has been stationed at Fort McMurray for the past three or four years. Two men will also be stationed at Lac la Biche, these being Constables Moses and McCarthy.

## Not the Ireland of History

According to Government Murders Are Committed by Imported Gunmen.

The dragging of a woman out of her humble home in the dead of night and shooting her to death, heedless of her pitiful appeals for mercy, and riddling her poor body with bullets under the open sky—surely this is not Ireland! Certainly, it is not the Ireland of history, in whose pages we find chivalry and tenderness and pity and gallant service rendered to worthy causes by a high-spirited race, who thrill to what is high and poetic, and find a catch in the throat for all things lovely and exalted.

The Government must be right; and the murders which suffuse the cheek with shame are committed by gangs of ruffians who have been prime scoundrels for whom the sacredness of human life does not exist and who will kill for wages, without compunction or remorse. It must be so, for it is incredible that any Irishman would commit the inefable crime of murdering a helpless woman, whose appeal for mercy could not be withstood by the fiercest savages.

## Tile Plant For Winnipeg.

Plans for the erection this fall, or early next spring, of the first unit of a brick tile and glazed tile manufacturing plant in Winnipeg are now completed, according to C. L. Thompson, manager of the Martin Engineering Company, of Niagara Falls, Ontario. The first unit will have a capacity of 20,000,000 free brick a year. Deposits of clay used in the manufacture of red buff fine brick are known to exist in close proximity to the city.

## A Matter Of Sense.

Cardinal Bourne is quite clear that there can be no complete separation of Ireland and England. He does not believe that the Irish want it. For this is a matter, not so much of sentiment, but of sense. Ireland cannot live without Great Britain, and from the standpoint of national defense it may be said that Great Britain cannot live without Ireland. The sooner that dream disappears the better.

## Children Cry for Fletcher's

# CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

## What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. ## HON. T. A. CRERAR SAYS GET WILD LANDS LISTED

Leader of National Progressive Party Endorses Principle of Legislation Requested by Western Canada Colonization Association and Its Multitude of Supporters Throughout Manitoba, Saskatchewan and Alberta.

Hon. T. A. Crerar's statement reads: "The proposal of the Western Canada Colonization Association that an inventory of unoccupied land be taken under Governmental auspices in the prairie provinces, and that the owners of such land should be obliged to fix a price at which they would sell to incoming settlers, is, I think, an excellent one. The fact that the price so fixed would be made the basis for assessment of the special Wild Lands Tax would keep the owner of the land down to a price that was reasonably fair. Land speculation and for that matter speculation in other natural resources, has been one of the worst evils this country has suffered from.

It is generally agreed that Canada needs more people but an immigration policy can only have permanent success if the people who are already living here are relieved of the artificial handicaps under which they have labored in the past, of which these speculations in land is one. The more people that come into the country the higher the land speculator raises the price. In the best interests therefore of the people of Canada the proposal that land held out of use should be made available for those who want to use it is sound and deserves the support of all good Canadian citizens. This step is in line with what the organized farmers of Western Canada have advocated for many years."

## Canada To See "All Star" Football

Tour of Scottish Team in Creating Wildest Enthusiasm.

When the officers and members of the Scottish All-Star football team arrive in Halifax on May 18th, the desire of all Canadian football men to have an Old Country professional first-class team of players come to this country, will be replete.

The Dominion Football Association, through President Dan MacNeil and Secretary-Treasurer D. W. Roy, have completed final arrangements after several month's efforts and development, and are now on their way to the Atlantic seaboard to welcome the party on behalf of the Association which they represent.

The party of sixteen players, who have been chosen for this long deferred missionary football enterprise to cement the ties of the Empire and bind Canada and Scotland closer in the bonds of sport and brotherhood, left Glasgow, May 10, and will sail from Liverpool on the Cunard liner, S.S. Cameronia. Upon their arrival in Canada, the Canadian National Railways will take charge of transporting the party to the Pacific coast and return. In order that games may be played in the principal cities in Canada and as the tour is a missionary effort for the sake of sport, fostered in an Imperial spirit, for the good of our Dominion, making the enterprise "National" it was decided that the National systems should be utilized. This railway is bending every effort to make the tour a pleasant one for the visitors and special facilities will be placed at their disposal by the National line.

The forthcoming tour is creating the wildest enthusiasm in Canada and in addition to the matches played here, the programme will include four games in the chief cities in the States. Matches in Canada will be played at Halifax on May 18th; Montreal, May 24th; Ottawa, May 21st; Hamilton, May 26th; Toronto, May 28th; Port William-Port Arthur, June 1st; Winnipeg, June 4th; Regina, June 6th; Saskatoon, June 8th; Calgary, June 11th; Edmonton, June 14th; Vancouver, June 18th. On the return trip, they will play at Prince Albert on June 28th; Winnipeg, July 1st; Toronto, July 6th; International game at Montreal on July 9th. The four games in the chief cities in the United States will be played between 9th and 26th.

The officials taking part in this patriotic football mission include J. B. Wilson, V.D., chairman of the Third Lanark Club; Andrew Mitchell and Thomas Sloan, two of the directors; and Mr. Connell, who is manager of the undertaking. The line-up and personnel of the team is:

Craig Brown—Centre half-back of the Motherwell club, who came into the team when Criegan, the Celtic star, was forced to withdraw. It is credited with being a "team in himself" by Old Country experts, and is certain to make a lasting impression.

John Marshall—One of the two players from English clubs, expected to tour with the Scottish team, for Middleborough, and is credited by "Bedouin" as being the greatest

right back of modern times. Starred in recent international.

James E. Gordon—Captained Scotland's team on several occasions. Formerly starred for Rangers but has been performing for Dunderline Athletic during the current season. Probably, the most versatile player in Britain. Starred in recent international.

Alex Bennett—Allison Rangers, one of the finest and nearest dribblers playing the game in Scotland. Made his great reputation while a member of the Glasgow Rangers, and should delight Canadian soccer fans.

Alex Troup—Dundee youngster, who has been the sensation of the football season. He has been the star performer for the Dens Park outfit, but reached the pinnacle of fame when he featured a recent international game. Is "slippery as an eel."

Jimmy Quinn—On retired list. Gained fame as centre forward for Celtic and Scotland. Of the aggressive, bustling type, he packed a wicked shot. Probably the best centre Scotland has produced. May play here occasionally.

James McMenamy—The dirty little inside winger, who contributed much to the success of Patrick Thistle in the recent Scottish Cup series. Formerly played for Celtic, and was frequently capped for Scotland. Known as the "Napoleon of Football."

Paddy Crossan—No Scottish team would be complete without one member from Edinburgh. "Auld Reekie's" representative is Paddy Crossan, a back of the first water, rugged as he looks, but a veritable stonewall in the pitch. Possesses a powerful kick.

Alex McNeil—Veteran right back of the Glasgow Celtic, hero of many international battles and considered one of the "brainiest" defence men playing the game in the Old Country. Of the "old war-horse variety." Never beaten!

Jimmy Brownlie—Famous goalkeeper, who can be classed as a veteran. Has been faithful custodian for Third Lanark for many years, and has seen much service in international matches. One of the best exponents of last-line defence in the world—"Daddy of them all!"

## Coal Problem One Of Transportation

Canada's Manufacturing Industries Face Removal From Coal Supply.

Ottawa.—Canada has immense supplies of coal in both eastern and western fields, but 70 per cent. of her manufacturing industries are located in Ontario and Quebec, where no coal is produced. Therefore the difficulty becomes one largely of transportation. This was the evidence given to the special House Committee on fuel resources by Joseph G. Hudson, of the Department of Mines.

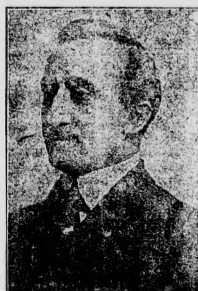

Mr. Hudson declared that at Sheep Creek, Alberta, there was a large deposit of coal almost equal to anthracite.

Finland to Retain Aland Isles.

Geneva.—The Aland Islands commission has submitted its report to the League of Nations here, recommending that the islands remain under Finnish sovereignty, with guarantee for the safeguarding of the Swedish population.

## Bolshevism in Ireland

Organization in Dublin Fostering Irish Republican Movement.

London.—A despatch to the London Times from Helsingfors says it has been learned that a telegram was sent to Maxim Litvinoff, the Russian Soviet chief of legations abroad, March 29, which establishes "the existence of a Bolshevik organization in Dublin engaged in fostering the Irish Republican movement." This telegram, according to the correspondent, said: "It is of the greatest importance that the 'germ cell' in Dublin should get 50,000 pounds through Krasavin." (Krasavin is the Soviet Minister of Trade and Commerce)

## Ambassador To Vatican Selected

Former Allied High Commissioner in Athens Chosen.

Paris.—Charles Jonnart, former Allied High Commissioner in Athens and former extraordinary ambassador to the Vatican, has been definitely selected by the French Government, according to L'Echo, as France ambassador to the Vatican.

Pope Benedict, the newspaper states, has chosen Monsieur Ceretti, Papal under secretary of state, as nuncio in Paris, under the same conditions.

Bush Fires Cause Uneasiness.

Toronto.—Bush fires in the Temiskaming and Nipissing districts of Northern Ontario where the spring has been very dry, are beginning to cause some uneasiness. The Mackay Lumber Company's yards at Laford, 30 miles west of Capreol, has been destroyed.

Cotton Wages Cut.

Manchester, Eng.—The cotton spinners and manufacturers association has given notice of a reduction of 30 per cent. in wages in the weaving section. Three hundred thousand operatives will be affected.

Similar notice has already been given in the spinning section.

League to Meet in September.

Geneva.—The assembly of the League of Nations will hold its next meeting in September in Geneva. President Dacuna, of the league's council, has issued the call for this session.

## Germany Unconditionally Accepts Reparation Terms

Prolonged Cheering Greeted Announcement in the House of Commons.

## Condemns Disturbances In Upper Silesia

Allies Have Issued a Proclamation to the Rebels.

Oppeln, Upper Silesia.—The allied commission has issued a proclamation to the people of Upper Silesia saying: "The allied powers are fully agreed in condemning the disturbances in Upper Silesia. These events will not influence the allies' decisions. In due time the allies will give a decision in the Upper Silesian question based solely on the results of the vote and the treaty of peace."

## Swiss Expel Foreigners

Unemployment and High Food Prices Given As Reason.

Berne.—Many Dutch newspaper correspondents in Berne and other Swiss cities have been ordered by the Government to leave Switzerland, "their stay no longer being considered necessary."

The Dutch ambassador has vigorously protested against this measure. Switzerland's financial condition, unemployment, and above all, the high prices of food, may well have caused this surprising order, many Swiss being of opinion that the influx of foreigners should be stopped by all means.

## Trail Ore Tonnage Increases

Business Shows Big Lead Over Last Year's Figures.

Nelson, B.C.—A 50 per cent. lead over last year's figures in tonnage of ore received in British Columbia is the record achieved by the Trail Smelter, whose margin over the 1920 figures passed the 50,000 ton mark the week just passed. To date 149,677 tons have been received against 87,471 one year ago. The Consolidated Mining and Smelting Company's own properties produced 147,579 tons of this.

Belgian King to Visit England.

London.—It was officially announced that Albert, King of the Belgians, would pay a visit of state to England early in July. The visit will begin July 4 and end on July 8.

To Vote on Daylight Saving.

Saskatoon, Sask.—A plebiscite will be held in Saskatoon on June 1 to decide on daylight saving for the present summer.

Berlin.—The Reichstag accepted the Allied ultimatum by a vote of 221 to 173, thus yielding to the final demands of the Allied Powers, and in so doing, agreed to fulfil the terms of the Treaty of Versailles "to the capacity of the nation to do so."

Dr. Wirth, Centrist leader, finally succeeded in forming a coalition cabinet, composed of Centrists, Majority Socialists and Democrats, which, confronted by grave necessity, speedily decided that acceptance of the ultimatum was the only course.

In making this announcement the new chancellor asked for an immediate decision, and in the voting, which followed, the Government was sustained. The Allied ultimatum required a definite reply, based on "Yes" or "No." No conditional reply would be entertained, and its ultimatum was formulated to expire on the night of May 12.

Berlin.—The Reichstag assembled at 9 o'clock and Dr. Wirth announced the formation of a new cabinet, with himself as chancellor and foreign minister.

London.—Germany's unconditional acceptance of the Entente reparation terms was delivered to Prime Minister Lloyd George by Dr. Schaner, German minister to Great Britain, here.

Mr. Lloyd George announced in the House of Commons Germany's complete acceptance of all the Allied demands. His announcement was greeted with prolonged cheering.

Dr. Schaner handed the German reply to the Prime Minister, and Mr. Lloyd George immediately telegraphed the news to all the Governments concerned.

Berlin.—Germany's reply to the allied ultimatum accepting the terms laid down by the Allied Supreme Council in London, is confined to a repetition of the exact terms of the decisions of the Allies with regard to guarantees, disarmament, the trial of war criminals, and financial conditions. The reply states that many adherents unconditionally to these decisions.

This reply was sent to the Allied capitals, for transmission to the heads of the Allied Governments, after the Cabinet, headed by Dr. Wirth, the new Chancellor, had received what amounted to a vote of confidence in the Reichstag.

Brandon Theatre Destroyed By Fire.

Brandon, Man.—The Willis Theatre and contents was totally destroyed by fire here following an explosion, the cause of which has not been learned. The loss is estimated at more than \$70,000.

### What is a Recommendation Worth?

That depends very much upon who gives it. For instance, we recommend Ames Holden "Auto-Shoes" as the cheapest mileage you can buy.

And we know a lot about tires. We have to in our business.

Hence our recommendation should carry some weight, apart from the fact that we are benefiting to some extent by your custom.

We know that if you buy once, you will buy again—because you will find that our recommendation saves you money on mileage.

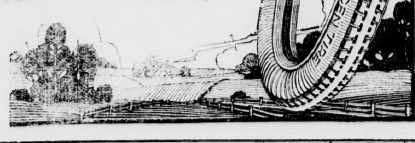

We will give you a guarantee which Ames Holden "Auto-Shoes" too—a guarantee that protects you against any defect in material or workmanship which may arise at any time in the life of the tire. And we will get you an adjustment on that basis should necessity arise, without quibble or red-tape. Drop in and let us show you Ames Holden "Auto-Shoes" today if you can.

## World Happenings Briefly Told

J. J. Walsh and Liam Keilts, Sinn Féin members of parliament for Cork City, Miss Mary MacSwiney and Lord Mayor O'Callaghan are announced as Sinn Féin candidates in the Cork Parliamentary elections.

Belgium has adhered to the international court of the League of Nations, the Belgian minister to Switzerland, F. Feltzer, having signed the document. Belgium is the 33rd signatory.

A Cleveland man reported his auto stolen, bought a new one and received a duplicate set of license plates with the same numbers as on his stolen car. Since then he has been stopped frequently on suspicion of stealing his own car.

L. T. Floyd, of the aply branch of the department of agriculture, Fredericton, N.B., has tendered his resignation to take a position with the aply branch of the Manitoba department of agriculture. He will leave early in June.

Trial of 129 officers of the old Austrian army, who are charged with conspiracy, has begun. They were members of the "death legion" which was formed to offer military service to any party opposed to Bolshevism or Communist dictatorship.

Construction has been started on the new Canadian College buildings in Regina. When completed the buildings will have cost about \$100,000. The new college will be largely constructed by Roman Catholic organizations under supervision of J. P. O'Leary, of Saskatoon.

## "I Cannot Go"

**BILIOUS** headache spoils many an expected enjoyment.

When the condition of the liver is neglected, biliousness seems to become chronic and recurs every two or three weeks, with severe sick headaches.

Why not get right after this trouble and end it by using Dr. Chase's Kidney-Liver Pills to restore the health and activity of the liver.

Constipation, indigestion, headache, biliousness and kidney derangements soon disappear with the use of the well-known medicine.

One pill a dose, 25 cts. a box, all dealers, on Kilmarnock, Bales & Co., Ltd., Toronto.

## Air Route Scheme in Alberta

Will Be Along Water Courses to Fort Norman.

The first commercial air route scheme in Northern Alberta and beyond will commence operations by the end of May. Captain May, promoter of the project, is now at Camp Borden taking special training in aviation. He will return to Edmonton shortly with a navigator's license, three new flying boats for service in the north and a crew of expert pilots. McLennan will be the base from which the air boats will fly. The route will be along the water courses via Fort Vermilion and Hay River, following the Peace and Mackenzie Rivers to the Great Slave Lake and Fort Norman oil fields.

## To Retain Good Health Follow This Advice

Most important of all is proper attention to the bowels. Avoid constipation—it is the healthkiller of today. Harsh gripping medicine is ruinous—be aware of it. Best results follow a remedy like Dr. Hamilton's Pills which relieve constiveness promptly and tone the bowels so that constipation becomes a thing of the past. No distress or inconvenience attends the use of Dr. Hamilton's Pills, which are famous for their mildness and efficiency. For headache, biliousness, indigestion and liver complaint, Dr. Hamilton's Pills are just what you need. Thousands maintain their health by regulating frequently with Dr. Hamilton's Pills, 25c all dealers or The Catarhozone Co., Montreal.

**Prepared For Anything.** Murdering a dying man in the presence of a priest, who was administering the last sacrament in the latest outrage credited to the Sinn Féiners. But there have been so many precedents of similar tenor that the public is prepared for anything in that line—Hamilton Spectator.

## "Cold in the Head"

Is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them immune to repeated attacks of Acute Catarrh which lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system, thus restoring the inflammation and restoring normal conditions. ## Helping The Red Cross

Everyone Working to Make Membership Drive a Success.

Some of the largest governmental and corporation organizations throughout the country are making use of their machinery to help the Red Cross Membership Enrollment, June 5 to 11, a success. The head offices of all the chartered banks of Canada are sending out literature to all their branches from the Atlantic to the Pacific. The Canadian National Railways is sending out literature to their employees in the Dominion. The Deputy Postmaster is himself sending out large display posters advertising the campaign to every post office in a conspicuous position where they will be readily seen by everyone transacting business.

## Vancouver's Successful Shipping Year

Harbor Board Reports Big Business Done In 1920.

According to the report of the Harbor Board, Vancouver had a most successful shipping year in 1920. During the year 644,043 passengers passed in and out of the port, 50,300 being Trans-Pacific passengers, and the remainder being on coastwise steamers. In the twelve months 11,449 coastwise steamers with a tonnage of 4,441,316 tons entered the harbor, whilst the deep sea tonnage to call included 336 ships with a net tonnage of 1,163,699. During the last three months of the year 136,000,000 feet of logs entered the harbor, and 25,000,000 feet of lumber were exported by water. The coastwise imports during the last three months amounted to 226,314 tons, and exports 85,012 tons.

## Greeks Reject Settlement

Allies Offered Generous Reward for Services During War.

A settlement by negotiation was offered to the Greeks which rewarded them for their services to the Allied generous lines. It was rejected, cause during the war on more than with an overbearing confidence in themselves, which nobody shared, the Greeks set out to satisfy all their demands by force. They have succeeded in getting hard knocks. There will be no sympathy for them in their disappointment, and when their quarrel with the Turks again becomes the subject of negotiation they must not be surprised if the conditions of settlement are less favorable to them than those they spurned.—London Daily Express.

## Manilaizer in Second Degree

Using a razor—bad stuff—but many people do it for their corns. The only remedy that is painless and sure is Putnam's Corn Extract, which does remove warts and corns, cleans them right off. Refuse a substitute for "Putnam's," 25c everywhere.

## Resume Cattle Trade With Cardiff

Cardiff is the only port in the British Channel licensed for admission of cattle for immediate slaughter and a Canadian ship with a consignment of Canadian cattle is due there early in May. It is nearly 15 years since Cardiff has received a cargo of Canadian steer cattle and the resumption of the trade is causing much local satisfaction.

## MUCH ILL HEALTH DUE TO BAD BLOOD

If the Blood is Kept Rich and Red You Will Enjoy Health.

More disturbances to health is caused by weak, watery blood than most people have any idea of. When your blood is impoverished, you are liable to suffer from lack of nourishment and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are under-nourished and you may have muscular rheumatism or lameness. If your blood is thin and you begin to show symptoms of any of these disorders try building up the blood with Dr. Williams' Pink Pills. These pills have a special action on the blood and as it becomes enriched your health improves. The value of Dr. Williams' Pink Pills in cases of this kind is proved by the experience of Mr. D. J. McDonald, North River Bridge, N.S., who says:

"For some years I suffered severely with headaches, pains in the back and a run-down condition. At times the pain in my back would be so bad that I would sit up in bed all night. From time to time doctors were treating me, but did not give me more than temporary relief. And then one day when I was suffering terribly a neighbor came to see me, and urged me to try Dr. Williams' Pink Pills. After taking two boxes I felt relief. I got six boxes more and before they were gone I felt as though they were giving me new life, as in every way they built up and improved my health and strength. I am now working as a baker in a pulp mill, ten hours a day and feeling none the worse after fifty days' work. I say with pleasure that this condition is due to Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

## A Summer Coat Of Navy Tussah

By Marie Belmont.

A silk coat is almost a necessity when dainty frocks are worn on cool summer days. This model is made of navy blue tussah, a silk that is not only smart-looking, but thoroughly practical for all sorts of wear. This coat is designed with a generous, rolling collar which on occasion may be folded up more closely round the neck. A novel trimming appears upon it for its plumpness of white silk is patterned upon the front, collar and cuffs. The narrow belt is fastened with two small roses made from the silk. The hat with jaunty upturned brim is decorated in the same manner as the coat.

## Work and Play.

Do not try to avoid work, but seek to find work that is congenial. Nothing in life brings such satisfaction as congenial work, honestly and well done. There is a measure of truth in the saying that all work and no play makes Jack a dull boy. It is still more emphatically true that all play and no work makes Jack a useless member of society, a nuisance and a nobody.—Orilla Packer.

Externally or Internally, it is Good. When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissues, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes, respiratory organs. Try it and be convinced.

## Are Cultivating Increased Acreage

Alberta Taking The Lead In Western Canada.

Acreage ready for seeding in Western Canada exceeds that of 1920. The three prairie provinces have acreage of 12,785,750 this year as against 11,649,744 in 1920. Alberta shows the largest increased crop. Conditions are favorable.

**Awful Asthma Attacks.** Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remedy rests its reputation upon what it has done for others. It has a record covering years of success in almost every part of this continent, and even beyond the seas.

## Mrs. A. Crawford Tells How Cuticura Healed Little Girl

"My little girl's trouble started with small pimples on the back of her head and they spread down her back. The pimples were hard and red and they itched and burned terribly. She scratched and irritated them and they later developed into sore eruptions. Her hair fell out and became thin and dry, and scales fell out on her clothing."

"I used a free sample of Cuticura and the pimples commenced to dry up. I bought more and when I had used one cake of Cuticura Soap and one box of Cuticura Ointment she was healed." (Signed Mrs. Abner Crawford, 83 Parker St., Bangor, Maine, Jan. 22, 1920.)

For every purpose of the toilet and bath Cuticura Soap, Ointment and Tablets are wonderfully good. See 25c. Cutsicura Soap, 25c. Cutsicura Ointment, 25c. Cutsicura Tablets, 25c. Sold throughout the Dominion, Canadian Dispensary, Limited, 24 St. Paul St., Montreal. Cuticura Soap shaves without soap.

**Successful Social Event**

One of the most successful social functions that Didsbury has known, took place last Tuesday evening in the Oddfellows Temple, under the auspices of the Cassandra Rebecca Lodge Didsbury. The occasion being a Kitchen Shower given in honor of one of our very popular brides to be known to most of us intimately as Miss Clara Cummings, whom we all regret very much losing, but of course when Dan Cupid enters all else gives place.

Between 75 and 100 of that part of Didsbury's population who enjoy life and don't take things too seriously, gathered for the occasion, and it is unnecessary to say that it will be needless for Clara to purchase any kitchen utensils for many moons.

After the formal shower our friend W. J. Hillyard took the floor and in a manner that would do credit to William J. Bryan, spoke at length on behalf of Clara and himself. Several who heard Bill speak, think that with a little time he might be premier of this grand and glorious province. After Bill had finished the never to be forgotten speech of the evening, the local orchestra struck up the beautiful Blue Danube. The floor was immediately the scene of much activity for those who enjoy the light fantastic, which was indulged in till the well known three blinks clouded temporarily the enthusiasm however not to be outdone some of our well known local lighting experts took charge and everything went on merrily as a marriage ball. Then the ladies served a most delicious supper which all enjoyed which brought the evening to a close all too soon.

Everyone wishing that cupid would visit these parts about once or twice before the coming June, God Save The King.

**AROUND THE TOWN**

In another column will be found an advertisement of the summer schedule of arrival and departure of trains on the C. P. R. Some of the trains have been changed. It would be well to look it up and govern yourselves accordingly.

Joseph Stauffer Chapter, R. A. M., will hold their regular convention in Wednesday night next. All Com. members are requested to be present.

Next Tuesday is the 24th of May and a Dominion holiday. All stores will be closed and the post office will only be open immediately after arrival of trains.

**\$10 REWARD**—Some damage has been done by unknown parties at the Didsbury Cemetery. Any information leading to conviction will be rewarded as above. J. V. Berscht, Secy. Treas. of Trustee Board.

On Wednesday, May 11th, Mrs. J. H. Lovrie entertained a number of Didsbury's young folks. The evening was pleasantly spent playing Five Hundred, Mr. J. Halton and Miss J. Alexander bearing off the honors. After this a most choice lunch was served and the lights warned only too soon.

**E. E. Freeman Elected**  
**President Rosebud**  
**B. B. League**

A meeting for the reorganization of the Rosebud Baseball League was held in the town of Crossfield on Saturday the 14th. The League was formed the same as last year, with the exception of being in Olds and leaving out Camrose, thus the League is now formed of Olds, Didsbury, Crossfield and Aldridge.

Mr. E. Freeman and Mr. C. Reiber attended the meeting as Didsbury representatives. The election of officers was first proceeded with, Mr. R. W. McFarlane was elected Chair, man, Mr. E. Freeman, Didsbury, had the honor of being elected President of the League, Mr. Samis of Olds, Vice-President and Mr. McFarlane of Crossfield, Secretary Treasurer. Business then commenced and it was moved:

—that each Club have only one vote at League meetings, the presiding officer to have the casting vote. Carried.

—that the Rosebud Baseball League affiliate with the A. A. Baseball Association. Carried.

—that each Club may register any number of players but must cut down to 14 players by June 15th and notify League Secy. accordingly. Carried.

—that By-Laws as changed be adopted and that we be governed by By-Laws of A. A. Baseball Association where they conflict. Carried.

—Messrs Samis, McNeil, McFarlane and Reiber were appointed a committee to draw up a schedule for the season.

The first baseball game of the season, weather etc. providing will be played off on Tuesday the 24th of May, at 3 o'clock on the old grounds. The conflict will be between Olds and

Didsbury, which should be a good game and it is hoped that a goodly crowd will turn out to root.

To further create interest in the game, Mr. H. W. Chambers has offered to the first local player who knocks out a clean home run, the choice of any bat in his store. Mr. W. G. Liesemer has made a similar offer to the player on the local club who makes the second home run. Providing these home runs are not made the first game, the offer holds good until the boys deliver. This of course has got the players swinging axes, fence posts, etc. to be in trim so that they can knock the ball from here to—Camrose. We think that prospects for a good team here are very fair.
